

Agilent Webinar Series

Ask the Experts

Webinar 1:
Magnis – Your automated research partner

Register now for the free Agilent Webinar Series

Want to enhance your skills in the Genomics world?

Have an hour to spare?

Join us on Tuesdays for a series of science topics presented by Agilent experts.

Presented by our field scientists, you'll learn tips and tricks to be more successful in your work.

Webinar 1: Magnis – Your automated research partner

Date: November 16, 2021

Time: 11:00 CET

Speaker: Brigette Brown-Kipphut, Agilent Technologies

Next Generation Sequencing technology allows molecular pathologists to profile samples for various generic aberrations. Many challenges exist with bringing technologies and methods to a laboratory, including the expertise required to develop, optimize, and validate assays protocols for use in diverse applications.

The Agilent Magnis NGS Prep system was designed to run complex NGS library assay with minimal technical knowledge and hands-on time – all with the press of a button. This webinar will explore the Magnis instrument along with running its NGS protocol.
